

“When Things Go Bang”:

Dangers of Coal, DRI, Calcium Hypochlorite

9th August 2018

Time: 1830hrs Doors open for Networking
1900 hrs Presentation commences

Venue: The Dubai International Seafarers Center.

Speaker: Daniel Jackson- Resident Director - Dr JH Burgoyne & Partners, DMCC.

Daniel joined the Partnership in May 2006 as an Associate, and became a Partner in July 2012. In April 2013, he moved to Dubai and opened the Partnership's first office in the Middle East. Since joining Burgoyne's, he has been engaged full-time in the investigation of fires and explosions in a wide variety of situations: industrial premises and machinery, electrical equipment, chemical plant, domestic premises and vehicles. He has undertaken numerous investigations of cargo and engine room fires on board ships, provided advice on the safe carriage of dangerous cargoes including direct reduced iron (DRI), and investigated a variety of cargo contamination incidents, utilising his experience as an analytical chemist. He has been personally responsible for investigating over 500 incidents across the world, including in the UK, mainland Europe, Asia and more recently throughout the Middle East and Africa.

2nd Topic : Requirement for Personal Wills in UAE

Speaker : Suresh Coelho, Partner,
MOIRAI Legal Consultancy
